

# ACRONIS QUICKSTART SERVICE

Acronis Agentless Backup for Scale Computing HC3 allows for full virtual machine backup and fast recovery for HC3 systems. This innovation delivers easy, efficient, reliable, and secure protection for all data and applications in on-premises and remote systems, in private and public clouds, and on mobile devices.

Acronis Agentless Backup for Scale Computing HC3 enables the import of virtual machines to the Acronis Management Server without having to install an agent on a virtual machine. Instead of individual agents running in the guest, the Scale Computing HC3 system integration handles back-up and restore of virtual machines.

	What's Included?	Estimated Time	Delivery	Details
