

Front End Engineer

We are seeking a front end engineering team member who is smart, curious, and loves the challenge of solving problems that can make a big impact. If you enjoy working on a variety of projects that will keep your skills sharp and embrace researching the right solutions, this is a great opportunity. You will be joining a super team of front end engineers who are passionate about creating a great UI while having fun doing it.

A great candidate will look like this:

- Has a passion for performant, resilient and scalable JavaScript
- Enjoys troubleshooting and problem-solving analytically
- Writes clean, highly readable and testable code
- Understands product functionality, yet knows customer experience comes before shipping code
- Experience working with Product Management and Development Teams
- A team player who can work well within the team and collaborate cross-functionally, especially in a remote environment
- A motivated self-starter who thrives on prioritization and follow-through
- Passionately creative in mindset, and has the ability to adapt quickly to evolving business needs

Responsibilities

- Work with Product Owners and back end developers to create browser driven interfaces
- Ensure all JavaScript is tested and reliable.
- Collaborate with designers to deliver pixel perfect interfaces that work on a variety of screen sizes
- Communicate frequently with developers on new and existing issues, including possible recommendations for resolution, improvements, and enhancements

- Self-education on Scale architecture and methodology
- Troubleshoot and problem-solve analytically

Requirements

- A BS degree in a Computer Science, or equivalent work experience
- Minimum of 2 year of industry experience
- Vanilla JavaScript as well as experience with frameworks such as Vue, React, Angular, etc.
- High level of CSS understanding
- Semantic HTML5 knowledge
- Experience using git
- Comfortable working in the command line environment
- Organizational discipline and professional communication skills

Other useful skills/experience

- Technical knowledge and experience in virtualization (mainline hypervisors)
- Experience with Vue is preferred
- Exceptional communication skills, both verbal and written, as to communicate effectively, both up and down within the organization

Compensation

- Competitive, based on experience
- Health Insurance: Vision, Dental and Medical (HDHP & PPO options)
- PTO & paid Company holidays

This is a full-time, permanent position and may be remote or based out of our downtown Indianapolis HQ.

If you've reached this point in the job description and feel you're still not sure if you should apply...Just do it! We know there are no perfect applicants. You may not have 100% of all those bullets listed above - and that's okay. If you're feeling like you're not going to fit in with our teams - you'll be surprised. We're all working towards the same goal at Scale Computing. Whoever you are and whatever background you bring, we encourage you to submit an application if it's a role you can be passionate about doing every day. Please send your resume, with the job title in the subject line to careers@scalecomputing.com.

Scale Computing, Inc. is an Equal Opportunity Employer. Individuals seeking employment at Scale Computing, Inc. are considered without regard to race, color, religion, national origin, age, sex, marital status, ancestry, physical or mental disability, veteran status, gender identity, or sexual orientation.

About Scale Computing

Scale Computing is a global business with offices around the world, thousands of customers, and countless applications running on our industry-leading HC3 platform. We enjoy this success because we have made a conscious effort to build this company amazing person by amazing person – could you be the next to join us as the newest Scaler?

Scale was founded on the belief that transparency, and collaboration create a culture of ownership, success and empowerment; more empowered employees are more productive employees. At Scale, we build empowerment through diversity and our core values of: Integrity, Innovation, Collaboration, Success, and Fun.

We are an “all killer, no filler” organization and believe everyone has an important role. We look for highly-motivated, smart, fun people to fill those roles. If working with other amazing people, to help us build a wildly successful company, sounds like fun to you, we'd love to hear from you.
