

Putting together a versatile Edge box

As a power management partner, Eaton provides solutions that organize, protect and manage HE100 and HE500 series appliances to help maximize business continuity and meet business objectives.

Eaton provides intelligent, scalable power management solutions designed to organize, protect and manage Scale Computing edge computing deployments, enabling a more efficient environment while protecting your valuable IT and hardware equipment.

A versatile solution for a changing environment is what is needed in the market; and not just a plug-and-play solution, but a plug-and-play solution that allows you exploit the limit of its capabilities. With a variety of products suitable for edge deployments Eaton becomes the perfect partner; **UPS** with VRLA and Lithium-ion batteries, rack **PDU**s for all type of density requirements, **racks and enclosures** for every type of IT environment and **switches and connectivity** elements for every size installation; and in terms of software our **Brightlayer Data Centers suite** helps you manage power and automate equipment at the device level, mitigate disaster, reduce downtime and run predictive analyses so you stay a step ahead.

Racks and Enclosures SRWF10UMOD

- 10U of mounting space for rack equipment up to 16.5 deep
- 1U Shelves for Modem and other non-rack devices
- Vented front door with built-in combination lock
- Brush-strip cable plates (on both sides)

UPS 5P1500R-L

- 1.1 kW 1U line-interactive UPS
- Lithium-ion batteries with 8 years of time life
- Intelligent automation through optional network card
- The first UPS connectivity device to meet both UL 2900-1 and IEC 62443-4-2 cybersecurity standards

Cable N201 series

- Integral strain-relief
- PVC 4-pair stranded UTP
- Snagless RJ45 connectors

Scale Computing HCI system HE100 series

- A fully-functional HCI offering based on small form-factor hardware
- Perfect fit for a 15VMs or less application

Rack PDU EMAT09-10

- Managed rack PDU
- Monitor and control critical factors such as voltage, current and power factor

Switch NG16

- AC power input
- RJ45 gigabit ethernet connectors

Brightlayer Data Centers suite
